The client felt that we did the best job of understanding who they are as a company, and were able to turn that knowledge into the most creative designs for their new space. They ultimately felt that we would be the best partner – not only to provide them with a great space, but to work with for years to come.

“ Our finished headquarters is spectacular! We couldn't be prouder! Because of Ben and Kyla's foresight and dedication, Plaskolite is now set for many years on our furniture and office needs.”

*Mitch Grindley*  
Plaskolite, President and CEO

## A Focus on Wellness and Values

In the new design all teams within the company are working in close quarters and share the same café, meeting spaces, lounge spaces, etc. Employees are running into other

employees that they may not have seen in their previous space for weeks or months at a time. The cafe was designed for all employees to use to either relax, work, eat, or hold impromptu meetings. There's now a lot more employee interaction than what they were used to.

# Goals + Key Issues

increase in collaborative work

multi-generations in the workplace

attracting + retaining talent

using space as a brand tool

increase workplace wellness

Private Offices

7

Conference Rooms

The building's new location downtown is amazing, but we really focused on the wellness of the employees by giving them the ability to choose different places to work. Every employee now has direct access to windows, which was a huge difference from their old space. Every employee also received height adjustable desks.

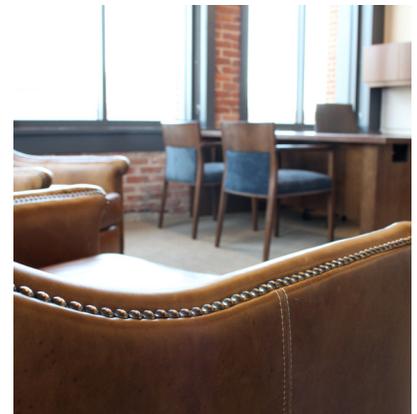

All furnishings for the private offices, conference rooms, and workstations were Steelcase product.

The CEO believes that the new space will not only help attract the best and brightest in their industry, but will actually help the companies revenue stream moving forward.

We were thrilled to partner with a company that has such high family values and an amazing reputation. They put a lot of trust in us to create a space that would allow them to be a leader in their industry for years to come, and we accomplished that together.
